ABOUT US

ADDMORE SERVICES LLC is a professional technical services company for the architectural, engineering, and construction industry, offering services such as Engineering Drawings and ERP Solutions, Project Management, FF&E Sourcing and Consultancy, Quantity Takeoffs and Cost Management, Architectural Drawings, BIM Services and Renderings, F&B Hospitality Design and Consultancy, ADDMORE Outsourcing and ADDMORE Recruitment.

Headquartered in Las Vegas, Nevada, with a team of licensed architects, civil engineers and quantity surveyors in Manila and Cebu, Philippines, the company's key markets include the USA, Australia, UK, Republic of Ireland, UAE, and Kingdom of Saudi Arabia.

Our services are further structured into four divisions, each specializing in distinct areas to ensure that we cater to every aspect of your requirements. With a commitment to excellence and a track record of delivering exceptional results, ADDMORE Services is your partner for success.

WHAT IS ERP SOLUTIONS?

Enterprise Resource Planning (ERP) solutions are comprehensive software systems designed to streamline and integrate core business processes and functions across an organization. These solutions typically encompass modules for various areas such as finance, human resources, supply chain management, manufacturing, and customer relationship management (CRM). By centralizing data and automating workflows, ERP systems enable companies to improve efficiency, enhance decision-making, and optimize resource utilization.

ADDMORE ERP SOLUTIONS

In partnership with Crows Nest, ADDMORE Services' ERP and Project Management solutions are designed to streamline business processes, enhance collaboration, and drive productivity across all facets of an organization. Leveraging cutting-edge technology and a wealth of industry expertise, we offer a comprehensive suite of services tailored to meet the unique needs and challenges of each client.

Crows Nest Software is the missing piece in your business. Crows Nest is the perfect ERP and project management solution for your company's subcontractors, fabricators, installers, and service providers. This construction project scheduling software can help keep your jobs organized and on time. Whether you are looking for effective RFI project management solutions or kitchen cabinet estimating software that can help better scope out projects, CrowsNest Software has you covered.

With Crows Nest Software's ERP solutions, businesses can gain a competitive edge by streamlining operations, improving collaboration, and leveraging data-driven insights to make informed decisions. Whether you are a small business or a large enterprise, our comprehensive ERP offerings can help you achieve operational excellence and drive success in today's dynamic business environment.

ADDMORE ERP SOLUTIONS

Software Features

DYNAMIC ESTIMATING

Based on a user created library of parametrically driven product templates. Our software features robust estimating tools, to meet unique requirements like:

- User created product library consisting of customizable product templates.
- Each product template contains materials and labor operations parametrically customized per takeoff usage.
- Each product template may optionally contain alternate configuration sets.
- Takeoff the project scope for group breakdown or holistic costing.

PROJECT COMMUNICATIONS

A suite of communication tools providing end-to-end project communication, end-to-end project information sharing and visibility.

- Milestone Date Dashboard
- Document Management
- Project Notes
- Project Contacts (CRM)
- Links

ADDMORE ERP SOLUTIONS

TASK MANAGEMENT

With a robust workflow engine, Our software easily handles task assignment and task completion monitoring for performance accountability.

- Description: Used to establish the task purpose, i.e., mandates, reminders, event occurrence, or decisions
- Assignment: Tasks may be assigned based on project role or default assignment. Multiple task assignments are also supported.
- Dependency: Task sequencing is determined by its dependency on its respective predecessor.

ENGINEERING PRECONSTRUCTION

Management of the project engineering phase offering shop drawing, RFI, RFQ, and material-submittal-approval tracking. Create manufacturing releases matching your shop's net resource capacity.

- Shop Drawing Register: Track each shop drawing's progress and status via milestone dates such as "required", "submitted" and "returned dates".
- Revision History: Each shop drawing line item tracks the revision history until final approval is received.
- Material & Finishes Approval: Submit Material Samples and Finish Samples for project owner/architect approvals. Submission history such as date sent, approval/rejected date are tracked.

ADDMORE ERP SOLUTIONS

MATERIAL MANAGEMENT

Requisitions and Purchase Order Management with real-time inventory visibility for lean execution and processing.

- Requisition Linkage: Each line item may be directly linked to a project Work Order, Shop Drawing and attachment.
- Requisition Data: Item description, including modifiers such as finish, pricing, vendor, payment and shipping terms when negotiated outside of purchasing are provided to procurement personnel for their purchase order facilitation.
- Purchasing: Satisfy all requisitions by either allocating from inventory, issuing a purchase order or rejecting back to the requisitioner.

ROBUST SCHEDULING

Dynamic operational and production scheduling in conjunction with net resource capacity.

- Separate your project into Work Orders, tracking each individually.
- Scheduling is driven via Crows Nest Task Management
- Visual, Drag & Drop
- Project & Production Scheduling

ADDMORE ERP SOLUTIONS

LABOR TIME COLLECTION

Track Labor in the Shop or in the Field with Crows Nest. Crows Nest provides a mobile (Android/IOS) app and a Windows PC based time clock standalone application to be disbursed throughout the shop to create for time keeping stations.

- PC stand alone program to capture individual clock-ins to a project, project Work Order, Project Labor Department and Labor Operation.
- Clock Into or out of a Break
- Clock In times may be rounded up, down to the nearest increment specified.
- Assigned Tasks may be marked as "complete" by the user.

SHIPPING MANIFESTS

Scan bar-coded shipping labels via the Crows Nest Mobile App for the listing of all items to reside in a shipping manifest. Then print Shipping Tickets to travel with the goods listed in the manifest to their destination

- User Defined Bar-Code Labels
- Mobile Barcode Scanning (Android, iOS)
- Windows Mobile CE Support for Industrial Laser Scanners
- Manifest list may be imported from 3rd party solution.

ADDMORE ERP SOLUTIONS

PROJECT FINANCIALS

Progress billing with Retention Tracking, Change Order and Payment Receipts Tracking and Real-Time Budget vs. Actual Costing Analysis.

- Schedule Of Values
- Change Orders Processing (submitted, pending, approved, rejected)
- Invoicing (with Retainage Processing)

CUSTOM REPORTING

Crows Nest will develop Custom Reports to user requirements for new customers as a standard service offering. If the data exists in Crows Nest, then a custom report can be created to your design around it

- Over 300 standard report layouts shipped with Crows Nest Software.
- Standard report layouts may be "tweaked" to customer preference.
- Custom report layouts based on user specification are optionally available.
- Reports may be automatically run on a configured repeating schedule.

ADDMORE ERP SOLUTIONS

ACCOUNTING INTEGRATION

Ready-made Integrations with QuickBooks, Sage, Xero plus import/export facilities for other 3rd party software.

- Quick Books
- Sage
- Zero
- Bluebeam
- Planswift

ANDROID & IOS MOBILE APP

In addition to the Crows Nest PC based timeclock station software is our mobile app (IOS and Android) for fast, easy, and convenient labor data entry at the work location.

- Timeclock: Clock in or out of a project, work order or assigned task directly to the Crows Nest server or via the TimeSheet when a data connection is not available. View entered hours over a data range.
- Project: Remotely capture GPS coordinates and view all project CONTRACTS.
- Manifests: Use your mobile device's camera to scan bar-coded shipping labels as you load for shipment or unload at the job site.

WHY CHOOSE US?

QUICK TURNAROUND

Our staff both in the Philippines and USA constantly coordinate for earliest completion of deliverables.

LICENSED PROFESSIONALS

Entrust your requirements with our highly-skilled and internationally experienced team of professionals.

CLEAR COMMUNICATION
