Think Outside the Box and **OutSource**

# OUTSOURCING AUTOCAD SHOP DRAWINGS AND DRAFTING IS A GREAT WAY TO INCREASE YOUR PROFIT!

WRITTEN BY TIMOTHEE BEATRICE ANN TACALAN, INTERIOR DESIGNER

March 10, 2021

Have you considered outsourcing an AutoCAD Engineer for your project? Aside from reducing the cost of labor and not having to provide an office seat and facilities, to enable your business to keep growing without increasing Fixed Overheads. ADDMORE AutoCAD and BIM services offer high quality, accurate drawings with quick turnaround. ADDMORE always provides clear and efficient communication and affordable pricing for architectural, and interior fit-out projects globally but primarily in the USA, UK, Middle East, and Australia.

**ADDMORE SERVICES**

Think Outside the Box and **OutSource**

We have a global team of qualified and experienced AutoCAD Engineers who can manage multiple projects, of various project types in hospitality, residential, commercial, medical, adaptive reuse, and marine. ADDMORE also provides support services to Architects and Interior Designers.

The key factor in outsourcing AutoCAD Engineers to increase your business profitability.

## 1. Affordable pricing

The decision to outsource will reduce your cost of labor and other business expenses such as advertising, recruitment, education, and training for employees, legal fees, employee benefits, utilities, software, and rentals or purchase of equipment and software. Outsourcing AutoCAD Engineers can help you focus on growing your business instead of worrying about recruiting and hiring additional staff and/or facilities.

You can trust that you are delegating the task in the trusted hands of the most capable talent who can deliver a

quick turnaround for the earliest completion of deliverables with high-quality and accurate shop drawings and Architectural drawings.

## 2. Scalability

Your company is more able to grow its business and create a competitive edge on your bids because you are working with AutoCAD Engineers who are qualified and experienced in their respective field.

Outsourcing your AutoCAD works will lead to a better efficiency in services and cost savings.

## ADDMORE SERVICES

Think Outside the Box and **OutSource**

ADDMORE services have four models for pricing:

*\*Hourly Rate \*Price per Project and Project Output \*Offshore Staff Leasing \*Managed Offshore Outsourcing*

The main benefit to your company is scalability enabling you to increase your team but NOT your fixed overheads OR decrease your team when the demand is not requiring it.

The second benefit is you can save on infrastructure and technology. Instead of providing additional office space, you can work remotely with a global team on affordable pricing who can deliver the services that you need in a quick turnaround of deliverables. These services include but are not limited to providing licensed software such as the latest AutoCAD software.

To work closely with a global and remote team who are AutoCAD specialists can generate not only accurate drawings with a quick turnaround of deliverables but also, they are talented and trained in freehand sketching and conversion of PDF

drawings to AutoCAD files.

ADDMORE have their own CAD standards in line with the latest Industry Standards. Skilled in rendering floor plans for various marketing purposes in the real estate sector, including Virtual animation fly thru's.

In selecting the right pricing models, you may check our website [Outsourcing AutoCAD Shop Drawings and Quantity Surveying Services: Selecting the Right Pricing Model.](#)
